National Nest Box Week 13 th -20 th February (tbc)	<p>National Nest Box Week encourages everyone to put up nest boxes in their local area in order to promote and enhance biodiversity and conservation of our breeding birds and wildlife.</p> <p>Website: www.bto.org/nbw/index.htm</p>	<p>Kelvin Jones Welsh Development Officer Office: 07979713282 (9am-5.30pm) Email: kelvin.jones@bto.org</p> <p>Paul Stancliffe BTO Press Officer Office: 01842 750050 (9am-5.30pm) Mobile: 07585 440910 (anytime) Email: press@bto.org</p>
National Science Week 9 th -18th March	<p>National Science & Engineering Week shines the spotlight each March on how the sciences and engineering relate to our everyday lives and helps to inspire the next generation of scientists with fun and participative activities.</p> <p>Website: www.britishtscienceassociation.org/web/index.htm</p>	<p>Mandy Westcott 01792 638965</p>
Climate Week 12 th -18 th March	<p>Climate Week is a supercharged national campaign to inspire a new wave of action on climate change culminating in a week of activities and events.</p> <p>Website: www.climateweek.com</p>	
Living with Mammals April-June	<p>As towns spread and brownfield sites are redeveloped, so the built environment continually grows. Gardens, allotments and parks blur the distinction between built and natural environments. They offer an alternative habitat for species such as the fox and act as ‘green corridors’ linking habitats that are too small to support wildlife on their own.</p> <p>By carefully identifying and counting the mammals that live in and around built up land, we can begin to understand – and encourage – the biodiversity on our doorstep.</p> <p>Website: www.ptes.org/index.php?cat=63</p>	<p>Dan Foreman 01792 295445 D.W.Foreman@swansea.ac.uk</p>
International Dawn Chorus Day	<p>International Dawn Chorus Day is the worldwide celebration of Nature's daily miracle.</p> <p>Website: www.idcd.info/events-in-your-area</p>	<p>Kelvin Jones Welsh Development Officer Office: 07979713282)</p>

National Dragonfly Atlas

The British Dragonfly Society (BDS) are collecting records of dragonfly sightings for our National Dragonfly Atlas. 2012 is the last year for collecting records and we are hoping to get records from every 10km square of Great Britain, so if you see a dragonfly, larvae or larval case, let us know!

Records can be submitted on the BDS's website (www.british-dragonflies.org.uk/content/recording-dragonflies-and-damselflies-british-isles) or to your local Vice-County Recorder.

As part of the Atlas project, the habitat survey aims to describe in detail the habitats of Britain's dragonflies for the forthcoming Dragonfly Atlas. Questionnaires are available for sites you know well, or are able to visit this summer. These will record the habitat and site characteristics of sites, and which breeding species are present at each (www.british-dragonflies.org.uk/content/bds-dragonfly-habitat-survey).
